

Gothenburg celebrates its 400th anniversary in 2021

Gothenburg will celebrate its 400th anniversary in 2021, and we intend to mark the occasion by making our city an even better place, all the way up to the centenary year and well beyond.

The path to 2021 is just as important as the centenary year itself. Each year has a theme that will give us something to focus on and talk about. This will enable us to keep the process alive each year leading up to 2021 and long beyond. The journey is all about our desire to get closer to the water, to build bridges and create open spaces – and involve the whole city in the celebrations.
